PROJECTS

Cutest App | SPA (Single Page Aplication)

- Individual project for Henry Bootcamp
Design and development of a SPA where React and Redux technologies were implemented in the Front-End area while the Back-End was carried out with Node and Express with a database created with PostgreSQL and Sequelize

Sportbase E-commerce

- Henry Bootcamp Final Project

Development of e-commerce with cart and payment gateway.

I was part of the Full-Stack team working both on the back-end with Sequelize and PostgreSQL and on the front-end with React, Redux and Chakra UI as a style library.

ACADEMIC TRAINING

Henry Bootcamp

Full-Stack Web Developer

- +700 hours of practice and live classes
- Training in Front-End and Back-End technologies
